

Nederland Fire Protection District

Fire Marshal Board Report – February 2024

Inspections:

NMSHS re-inspection completed – nearly all safety violations have been resolved, with only a couple of minor issues left. Thanks to head custodian Kurtis Smith for all his efforts and coordinating with BVSD for the fantastic turn-around.

NES fire safety inspection completed – there were 25 violations. Working with school and BVSD to ensure we get similar results as NMSHS.

Projects:

First Due –

Pre-plans: Pre-plan for both schools and a couple new businesses completed. Looking to do B&F and 80 Big Springs next.

Wildland Pre-Plans & CWPP Update –

Attended another CWPP meeting - working on a delegated list of information regarding our wildland capabilities, project management, and data entry.

Wildland worksheet/template has been developed into an alpha version/proof of concept. Many thanks to Sherry for her time creating it from scratch since it was overly complicated to convert the templates we had from Castle Rock.

We will use this to start editing it even more, filling in some missing information, then testing it in a group scenario/training.

Dedicated to serving all who call upon us; with Proficiency, Integrity, and Compassionate Response.

Nederland Fire Protection District

Fire Marshal Board Report – February 2024

Wildland Pre-plan/Worksheet Templates continued...

The first versions of the strategic and tactical maps have come in – I'm very excited to start fine-tuning the maps.

Other Activities:

I will be attending the ICC meeting in Loveland the first week of March and taking several classes.

Working with Capt. Wheelock and a local elevator engineer to host a Firefighter Elevator Ops course.
